of the

## **Master Program Management**

at the  
Otto-von-Guericke University Magdeburg  
Fakultät für Wirtschaftswissenschaft/  
Faculty of Economics and Management

23.03.2016

### **What are the objectives of this study program?**

The Master Program in Management is designed to equip students with the knowledge, methods, and skills necessary to pursue a professional career in business or academia. The program builds upon a strong basis in quantitative methods, (finance, marketing, and strategic) management, and economic theory provided within the first two semesters. According to their interest and career plans, students choose to follow either a more practically oriented or a more scientifically oriented study path. A 3-semester fast-track option (including the preparation of the master thesis), may be offered to especially qualified and hardworking students upon enrollment. Prior work experience is not required for admission. The program emphasizes international aspects. The language of instruction is English, and the student community is split almost equally in international and German students. Integration of studies abroad (preferably in the 3rd semester) is recommended.

<b>Degree conferred:</b>	Master of Science
<b>Course duration:</b>	4 semester
<b>Language of instruction:</b>	English (a limited number of credit points may be earned from courses offered in German)
<b>Enrollment:</b>	winter semester(October)

### **Career perspectives:**

Work as a manager in foreign or multi-national, private or public enterprises of the industrial or the service sector; join a Ph.D. Program in Management.

### **What kind of knowledge/experience/interest should I exhibit?**

Interest in management theory and scenarios; solid knowledge of mathematics and English.

# Program Structure/Curriculum

## Master Program “Management“

**Bridge Modules** (credits potentially required for final admission) according to § 4 (1) Prüfungsordnung  
 (Microeconomics, Management Accounting, Financial Management, Decision Analysis)

1 <sup>st</sup> semester	Mathematics for Business 6 CP	Business Statistics 6 CP	Business Decision Making 6 CP	Microeconomic Analysis 6 CP	International Corporate Strategy 6 CP	30 CP
2 <sup>nd</sup> semester	Marketing Models & Analysis 6 CP	Corporate Finance 6 CP	CE-module: Seminar 6 CP	CE-module: Seminar 6 CP	Elective module 6 CP	30 CP
3 <sup>rd</sup> semester	<b>Elective Studies</b> (either A, B or C): 30 CP					
	Elective Studies A) study abroad (Auslandsstudium)					
	Elective Studies B) supervised internship (betreutes Praktikum)					
	Elective Studies C) interdisciplinary elective courses (disziplinübergreifende Wahlkurse)					
	Elective module	Elective module	Elective module	Elective module	Elective module	
4 <sup>th</sup> semester	<b>Master-Thesis with Research Seminar</b> 30 CP					

Abbreviations: CE = Compulsory elective, CP = Credit Points according to the European Credit Transfer System (ECTS)

## **Compulsory modules**

<b>Module:</b>
Business Decision Making
<b>Applicability of the module:</b>
Compulsory module
<b>Qualification Targets (Competencies):</b>
The students
<ul style="list-style-type: none"> <li>- obtain a deeper theoretical foundation of individual, interactive, and group decision making,</li> <li>- learn and train practical methods of decision support for prominent types of decision problems,</li> <li>- acquire skills for analytical decision support.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Preferences and Decision Behavior</li> <li>- Utility Theory</li> <li>- Multiattribute Decisions</li> <li>- Decisions under Uncertainty</li> <li>- Sequential Decisions</li> <li>- Strategic Interactive Decisions</li> <li>- Group Decision Making and Negotiation</li> <li>- Fair Division</li> </ul>
<b>References:</b>
<ul style="list-style-type: none"> <li>- Bell, D. E.; Raiffa, H.; Tversky, A. (1988): Decision Making – Descriptive, normative, and prescriptive interactions. Cambridge University Press: Cambridge et al.</li> <li>- Clemen, R. T.; Reilly, T. (2001): Making Hard Decisions. Duxbury/Thomson Learning: Pacific Grove [Calif.].</li> <li>- French, S. (1976): Decisions with Multiple Objectives: Preferences and Value Tradeoffs. John Wiley &amp; Sons: New York et al.</li> </ul>
<b>Forms of Instruction / Course Language:</b>
2L, 1T / English
<b>Previous Knowledge:</b>
The contents of the following module are recommended
<ul style="list-style-type: none"> <li>- Entscheidungstheorie, Wahrscheinlichkeit und Risiko</li> </ul>
of the Bachelor Program "Betriebswirtschaftslehre" of the FWW.
<b>Work Load:</b>
42 hours attendance time and 138 learning hours
<b>Frequency:</b>
Each winter semester
<b>Assessments/Exams/Credits:</b>
Written exam (60 min), 6 CP
<b>Responsible for the Module:</b>
Chair of Entrepreneurship

<b>Module:</b>
Business Statistics
<b>Applicability of the module:</b>
Compulsory module
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- gain knowledge of statistical theory and methods,</li> <li>- acquire skills for statistical data analysis,</li> <li>- attain a high level of skills for deriving inferences using statistical test and estimation methods,</li> <li>- acquire basic software skills in the exercises.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Basics</li> <li>- Statistical tests and evidence</li> <li>- Non-parametric methods</li> <li>- General linear model (regression and ANOVA)</li> <li>- Time permitting: Logit and probit models</li> </ul>
<b>References:</b>
<ul style="list-style-type: none"> <li>- Anderson, D. R.; Sweeney, D. J.; Williams, T. A. (2010): Statistics for Business and Economics. Cengage Learning EMEA: London et al.</li> </ul>
<b>Forms of Instruction / Course Language:</b>
2L, 2T / English
<b>Previous Knowledge:</b>
<ul style="list-style-type: none"> <li>- none</li> </ul>
<b>Work Load:</b>
56 hours attendance time and 124 learning hours
<b>Frequency:</b>
Each winter semester
<b>Assessments/Exams/Credits:</b>
Written exam (60 min), 6 CP
<b>Responsible for the Module:</b>
Senior Lectureship of Business Economics

<b>Module:</b>
Corporate Finance
<b>Applicability of the module:</b>
Compulsory module
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- get a broad knowledge of corporate finance topics,</li> <li>- are able to analyze the CAPM under market imperfections and to use different performance measures,</li> <li>- are familiar with insights of the capital structure, i.e. the Modigliani-Miller propositions, and company valuation, in particular the DCF method,</li> <li>- have knowledge about risk management and agency theory.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- CAPM under Market Imperfections</li> <li>- Performance Measurement</li> <li>- Capital Structure</li> <li>- Company Valuation</li> <li>- Financial and Corporate Risk Management</li> <li>- Agency Theory</li> </ul>
<b>References:</b>
<ul style="list-style-type: none"> <li>- Ross, S. A.; Westerfield, R. W.; Jaffe, J. F. (2008): Corporate Finance. 8<sup>th</sup> edition, McGraw-Hill: Boston [Mass.].</li> </ul>
<b>Forms of Instruction / Course Language:</b>
2L, 1T / English
<b>Previous Knowledge:</b>
<p>The contents of the following modules are recommended</p> <ul style="list-style-type: none"> <li>- Financial Management of the Bachelor Program "Management and Economics/International Business and Economics" of the FWW or</li> <li>- Wertpapieranalyse of the Bachelor Program „Betriebswirtschaftslehre“ of the FWW,</li> <li>- Option Pricing.</li> </ul>
<b>Work Load:</b>
42 hours attendance time and 138 learning hours
<b>Frequency:</b>
Each summer semester
<b>Assessments/Exams/Credits:</b>
Written exam (60 min), 6 CP
<b>Responsible for the Module:</b>
Chair of Banking and Finance

<b>Module:</b>
International Corporate Strategy
<b>Applicability of the module:</b>
Compulsory module
<b>Qualification Targets (Competencies):</b>
The students
<ul style="list-style-type: none"> <li>- get a notion of how to analyze the strategic positioning of firms,</li> <li>- are able to formulate and implement strategies.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- What is strategy and why is it important?</li> <li>- The strategic management process</li> <li>- External analysis: Industry structure, competitive forces, and strategic groups</li> <li>- Internal analysis: Resources, capabilities, and activities</li> <li>- Competitive advantage and firm performance</li> <li>- Strategy formulation I: Business strategy</li> <li>- Strategy formulation II: Corporate strategy</li> <li>- Strategy formulation III: Global strategy</li> <li>- Strategy implementation</li> <li>- Case Studies</li> </ul>

(2009): Managerial Economics and Organizational Architecture, 5<sup>th</sup> edition, McGraw Hill: Boston [Mass.].</li> </ul>
<b>Work load:</b>
42 hours attendance time and 138 learning hours
<b>Frequency:</b>
Each winter semester
<b>Assessments/Exams/Credits:</b>
Final written exam, 6 CP
<b>Responsible for the Module:</b>
Chair of International Management

<b>Module:</b>
Marketing Methods and Analysis
<b>Applicability of the module:</b>
Compulsory module
<b>Qualification Targets (Competencies):</b>
<ul style="list-style-type: none"> <li>- This course examines the role of marketing research in the formulation and solution of marketing problems, and develops the students' basic skills in conducting and evaluating marketing research projects.</li> <li>- Special emphasis is placed on problem formulation, research design, methods of data collection (including data collection instruments, sampling, and field operations), and essential data analysis techniques. Applications of basic marketing research procedures to a variety of marketing problems are explored.</li> <li>- In the exercise sessions, IBM SPSS Statistics will be used to apply the methods taught in the lectures.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- The role and value of marketing research information</li> <li>- The marketing research process</li> <li>- Designing the marketing research project</li> <li>- Gathering and collecting data</li> <li>- Data preparation and analysis (e.g., hypothesis tests, ANOVA, regression analysis, factor analysis, cluster analysis)</li> <li>- Principles of qualitative research</li> </ul>

<b>Forms of Instruction / Course Language:</b>
2L, 2T / English
<b>Previous Knowledge:</b>
<ul style="list-style-type: none"> <li>- Intermediate knowledge of Microeconomics and Macroeconomics.</li> </ul>
<b>Work Load:</b>
56 hours attendance time and 124 learning hours
<b>Frequency:</b>
Each winter semester
<b>Assessments/Exams/Credits:</b>
Written exam (endterm, 120 min), 6 CP
<b>Responsible for the Module:</b>
Chair of Public Economics

## **Compulsory elective modules**

<b>Module:</b>
Seminar: Advanced Business Economics
<b>Applicability of the module:</b>
Compulsory elective module
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- learn how to identify and describe problems and challenges for theoretical reasoning,</li> <li>- get to know academic research methods and sources of information,</li> <li>- acquire the ability to write academic papers and to present their results,</li> <li>- develop an ability to participate in academic discussions.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- During the first session of the seminar guidelines to academic paper writing will be introduced.</li> <li>- Supervised by a professor, the student will write a seminar paper on the economic analysis of business problems.</li> <li>- The paper has to be presented and discussed with the other students in the seminar.</li> </ul>
<b>References:</b>
<ul style="list-style-type: none"> <li>- Course-dependent</li> </ul>
<b>Forms of Instruction / Course Language:</b>
2S / English
<b>Previous Knowledge:</b>
<ul style="list-style-type: none"> <li>- successful completion of courses in Microeconomics.</li> </ul>
<b>Work Load:</b>
28 hours attendance time and 152 learning hours
<b>Frequency:</b>
Each summer semester
<b>Assessments/Exams/Credits:</b>
Seminar paper and presentation, 6 CP
<b>Note:</b>
A withdrawal of the exam registration is not possible for this module.
<b>Responsible for the Module:</b>
Chair of Economics of Business and Law

<b>Modulbezeichnung:</b>
Seminar: Aktuelle Probleme der Informationsverarbeitung und der Personalplanung
<b>Verwendbarkeit des Moduls:</b>
Wahlpflichtmodul
<b>Lern- und Qualifikationsziele (Kompetenzen):</b>
<p>Die Studierenden</p> <ul style="list-style-type: none"> <li>- vertiefen die erworbenen Kenntnisse auf dem Gebiet der Unternehmensführung und Organisation, mit Rückgriff auf wissenschaftliche Primärliteratur in deutscher oder englischer Sprache bzw. einschlägige Datenquellen,</li> <li>- festigen die erlernten und erwerben ggf. weitere Techniken des wissenschaftlichen Arbeitens,</li> <li>- sind in der Lage, eine wissenschaftliche Arbeit zu erstellen und zu präsentieren,</li> <li>- erwerben die Fähigkeit, sich wissenschaftlich mit den Arbeitsergebnissen anderer Seminarteilnehmer auseinanderzusetzen.</li> </ul>
<b>Inhalt:</b>
<ul style="list-style-type: none"> <li>- Die Betriebswirtschaftslehre als entscheidungsorientierte Realwissenschaft beschäftigt sich in all ihren Facetten mit dem Treffen von ökonomisch „guten“ Entscheidungen.</li> <li>- Den Teilnehmern des Seminars werden hier verschiedenste Methoden zur Entscheidungsfindung vorgestellt und kritisch diskutiert.</li> <li>- Besondere Aufmerksamkeit gilt dabei dem Treffen von Entscheidungen im Kontext von Personalplanungsproblemen, aber auch der Einsatz von personalwirtschaftlichen Strategien zum Umgang mit Informationsasymmetrien wird im Rahmen des Seminars beleuchtet und auf dessen Zweckmäßigkeit hin überprüft.</li> </ul>
<b>Literaturhinweise:</b>

<b>Module:</b>
Seminar: Evidence-based business strategy
<b>Applicability of the module:</b>
Compulsory elective module
<b>Qualification Targets (Competencies):</b>
This research seminar will address recent fields of research in business strategy from an evidence-based perspective. The students <ul style="list-style-type: none"><li>- will have knowledge of the concept of evidence-based management</li><li>- will have an understanding about and awareness of individual biases that undermine evidence-based decision making in a business strategy context</li><li>- will gain knowledge of the methodology and will be able to reflect through the lense of meta-analytic evidence</li><li>- Apply the principles of evidence-based management to decision-making in internationally operating corporations</li></ul>
<b>Contents:</b>
This research seminar will address recent fields of research in international business strategy from an evidence-based perspective. The participants will gain knowledge of the concept of evidence-based management and evidence-based business strategy. Moreover, the participants will gain knowledge of the methodology (meta-analytic procedures using MS Excel) and will be able to reflect the respective topics through the lense of meta-analytic evidence. The main purpose of the seminar is to apply the principles of evidence-based management to strategic decision-making in internationally operating corporations. The topics are related to the relationships between different strategic orientations (e.g., technology orientation, learning orientation, entrepreneurial orientation, market orientation) and firm performance as well as the boundary conditions of these associations.
The seminar includes meta-analytic procedures. Meta-analysis encompasses a set of statistical methods to conduct a systematic, quantitative review of the literature in order to derive empirical generalizations. The use of meta-analytic practices allows students to determine the overall effect size of specific relationships and to test whether the effects depend on study and context characteristics, or other moderators. The seminar will focus on the meta-analysis research process, from literature search, coding of the effect sizes, bivariate meta-analysis, moderator analysis, to reporting the findings. All steps of the meta-analysis process will be demonstrated and practiced during the sessions.

Seminar: Executive Compensation
<b>Applicability of the module:</b>
Compulsory elective module
<b>Qualification Targets (Competencies):</b>
The students
- are introduced to current finance-oriented research on managerial compensation,
- critically assess academic research,
- present own work,
- actively participate to an academic discussion
<b>Contents:</b>
- History of executive compensation
- Measurement of executive pay and incentives
- Are observed practices in executive compensation optimal?
- Efficient contracting view
- Managerial power view
- Other views (perceived costs, role of regulation)

Seminar: International Business Strategy
<b>Applicability of the module:</b>
Compulsory elective module
<b>Qualification Targets (Competencies):</b>
In this seminar students will <ul style="list-style-type: none"> <li>- deepen their knowledge in the field of international strategy formulation,</li> <li>- use theoretical constructs to develop solutions to practical problems,</li> <li>- get insights into real-life strategic decision-making,</li> <li>- improve their case analysis skills, and</li> <li>- further develop their feedback and reasoning competencies.</li> </ul>
<b>Contents:</b>
This seminar is aimed at applying theoretical and conceptual constructs discussed in the lecture "International Corporate Strategy" to the real-life case of a multinational company that has decided to go international with one of its innovations. Participants will work in teams of 2 to develop a strategic concept for their international expansion strategy and will decide if and how to enter a foreign market.

<b>Module:</b>
Seminar: Tax Accounting Research: Conforming and non-conforming tax planning
<b>Applicability of the module:</b>
Compulsory elective module
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- gain knowledge on current international research in the field of tax accounting with a focus on different tax planning strategies,</li> <li>- learn how to specify a research question and how to acquire knowledge in an emerging field of research by themselves,</li> <li>- gain experience how to write a seminar thesis (including a literature review) and how to present their results (in German or English language),</li> <li>- intensify their skills on statistical research methods and how these methods are used in empirical accounting research.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Non-conforming tax planning affects the taxable profit without affecting the pre-tax financial accounting profit of the firm. Corresponding strategies may be identified by accounting measures like effective tax rates and book-tax differences.</li> <li>- Conforming tax planning affects not only the tax balance sheet but also the financial accounts. Therefore, corresponding strategies do not only lead to a lower tax burden but also to a manipulation of the financial accounting income (also known as earnings management) with the target of reducing the tax burden.</li> <li>- The seminar deals with current research on both forms of tax planning. In detail, we discuss the identification of tax planning strategies in the financial accounts, connections between tax planning and earnings management, and profit shifting as a specific international form of tax planning.</li> </ul>

Für dieses Modul ist ein Widerruf der Prüfungsanmeldung nicht möglich.
<b>Modulverantwortliche(r):</b>
Professur für Entrepreneurship

# **Elective modules**

Students have to choose elective modules of 6 CP in total.

In this context, please note the following details:

- Any chosen module has to be offered within a Master Program.
- The requirements of choosing a module must be regarded. They arise from the examination and study regulations of the Faculty of Economics and Management (FWW) or those of another faculty that offers the module.
- The module must be offered by a professor, a post-doc or a visiting professor.
- Transcripts must be graded.
- Each elective module can only be credited once.
- Whether a module of another faculty can be credited must be clarified with the Academic Records Office of the FWW in advance.
- Students have to register in written form at the Examination Board of the FWW for a written exam within the period fixed of the respective semester.

The range of elective modules offered by the FWW includes -among others- the below-mentioned modules. Other modules offered by the FWW include the "Wahlpflichtmodule" of the German Master Program "Business Economics". The offer of the respective semester can be obtained from the information system of the university (LSF).

Information (e.g. qualification targets, contents, transcripts, etc.) about modules of other faculties are included in the program handbooks of the respective faculty.

*Management*

<b>Module:</b>
Accounting Theory
<b>Applicability of the module:</b>
Elective module (for Electives II or Electives C)
<b>Qualification Targets (Competencies):</b>
The students
<ul style="list-style-type: none"> <li>- look at accounting from a theoretic perspective,</li> <li>- develop and use an appropriate level of abstraction,</li> <li>- get a notion of how to model accounting problems,</li> <li>- learn to discover first order effects,</li> <li>- identify the essential details of accounting.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Accounting versus economics</li> <li>- Accounting as an information system</li> <li>- Accounting tools, procedures, and limits</li> <li>- Decision facilitating versus influencing role of accounting</li> <li>- Accounting numbers and performance measurement</li> </ul>
<b>References:</b>
<ul style="list-style-type: none"> <li>- Demski, J. S. (2008): Managerial Uses of Accounting Information. 2<sup>nd</sup> edition, Springer Verlag: New York.</li> <li>- Christensen, J. A.; Demski, J. S. (2003): Accounting Theory: An Information content Perspective. McGraw-Hill/Irwin: Boston [Mass.].</li> </ul>
<b>Forms of Instruction / Course Language:</b>
2L, 1T / English
<b>Previous Knowledge:</b>
<ul style="list-style-type: none"> <li>- Management Accounting knowledge at an intermediate level.</li> </ul>
<b>Work Load:</b>
42 hours attendance time and 138 learning hours
<b>Frequency:</b>
Winter semester (every second year), winter semester 2016/2017
<b>Assessments/Exams/Credits:</b>
Written exam (60 min), 6 CP
<b>Responsible for the Module:</b>
Chair of Accounting and Control

<b>Module:</b>
Advanced Marketing Research Methods
<b>Applicability of the module:</b>
Elective module (for Electives II or Electives C)
<b>Qualification Targets (Competencies):</b>
<ul style="list-style-type: none"> <li>- Building on the module "Marketing Methods and Analysis", this course provides an application-oriented introduction to more advanced and sophisticated marketing research methods. Over the years, researchers and practitioners have used these methods for a wide variety of applications, such as product development, market segmentation, and determining the optimal marketing mix. These same techniques are also very useful for other types of business (and non-business) problems.</li> <li>- In addition to the introduction of methods, special attention will be paid to questions surrounding the measurement of complex phenomena such as brand image or customer satisfaction.</li> <li>- Participants will learn about the fundamental concepts of the methods in a three-day seminar (attendance is compulsory) at the beginning of the semester, followed by a written open-book exam.</li> <li>- In the second part of the course, students will engage in group work to prepare a research report on a marketing-related business problem.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Recap: Fundamentals in Statistics and Exploratory Factor Analysis</li> <li>- Measurement in Marketing</li> <li>- Principles of Partial Least Squares Structural Equation Modeling (PLS-SEM)</li> <li>- Advanced Issues in PLS-SEM (mediation, moderation, multigroup analysis)</li> </ul>
<b>References:</b>

<b>Forms of Instruction / Course Language:</b>
2L, 2T / English
<b>Previous Knowledge:</b>
The contents of the following module are recommended
<ul style="list-style-type: none"> <li>- Marketing Methods and Analysis.</li> </ul>
Knowledge of statistics is required.
<b>Work Load:</b>
56 hours attendance time and 124 learning hours
<b>Frequency:</b>
Each winter semester
<b>Assessments/Exams/Credits:</b>
Written open-book exam (60 min), research report of applied marketing research methods, 6 CP
<b>Note:</b>
A withdrawal of the exam registration is not possible for this module.
<b>Responsible for the Module:</b>
Chair of Marketing

<b>Module:</b>
Bargaining, Arbitration, Mediation
<b>Applicability of the module:</b>
Elective module (for Electives II or Electives C)
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- know the basic concepts of cooperative and non-cooperative bargaining theory,</li> <li>- are able to apply these models to the analysis of bargaining situations,</li> <li>- understand the relevance of strategic moves that have an impact on the bargaining situation,</li> <li>- know basic models of arbitration and mediation.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Axioms of individual and collective decision-making.</li> <li>- The Nash bargaining solution as a cooperative approach to bargaining.</li> <li>- Non-cooperative bargaining models: Rubinstein- and Stahl-Model.</li> <li>- Bargaining rules and their theoretical foundations.</li> <li>- Applications of models to real-world bargaining problems</li> <li>- Strategic moves to improve threat points or agreement valuations.</li> <li>- Introduction to arbitration and mediation models.</li> </ul>

<b>Previous knowledge:</b>
Students should know the basic principles of Finance
<b>Work Load:</b>
28 hours attendance time and 152 learning hours
<b>Frequency:</b>
Each winter semester
<b>Assessments/Exams/Credits:</b>
25% Written exam (60 min), 50% Project and Presentation (Group Work), 25% Assignments, 6 CP
<b>Note:</b>
A withdrawal of the exam registration is not possible for this module.
<b>Responsible for the Module:</b>
Chair of Financial Management and Innovation Finance

<b>Module:</b>
Information, Reputation and Interactive Marketing
<b>Applicability of the module:</b>
Elective module (for Electives II or Electives C)
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- gain theoretical knowledge on how information and reputation affect market interaction,</li> <li>- gain knowledge of empirical findings on the effect of information and reputation in markets,</li> <li>- acquire skills for strategic market analysis,</li> <li>- attain skills for planning interactive marketing campaigns.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Asymmetric information in markets</li> <li>- Reputation and reputation systems</li> <li>- Advertising and quality signals</li> <li>- Interactive marketing and the exchange of information on markets</li> </ul>
<b>References:</b>
<ul style="list-style-type: none"> <li>- none</li> </ul>
<b>Forms of Instruction / Course Language:</b>
2L, 2T / English
<b>Previous Knowledge:</b>
The contents of the following module are recommended
<ul style="list-style-type: none"> <li>- Microeconomics of the Bachelor Program "Management and Economics/International Business and Economics" of the FWW or,</li> <li>- Mikroökonomik of the Bachelor Program „Betriebswirtschaftslehre“ of the FWW.</li> </ul>
<b>Work Load:</b>
56 hours attendance time and 124 learning hours
<b>Frequency:</b>
Generally each summer semester
<b>Assessments/Exams/Credits:</b>
Written exam (60 min), 6 CP
<b>Responsible for the Module:</b>
Chair of E-Business

<b>Module:</b>
Institutional Economics for Managers: Theory and Applications
<b>Applicability of the module:</b>
Elective module (for Electives II or Electives C)
<b>Qualification Targets (Competencies):</b>
<ul style="list-style-type: none"> <li>- get introduced into analyze the impact of institutions on the incentives of economic agents and as a result on the efficiency of economic organizations;</li> <li>- are enabled to explain relationship between institutions and economic performance.</li> <li>- will become familiar with of recent developments in the field of institutional economics; instruments, assumptions, basic concepts and techniques related to the subject;</li> <li>- gain insight into impact the on the efficiency of resource allocation and on the welfare of all members of the society under the assumption of positive transaction costs;</li> <li>- are enable assess the role of specific institutional arrangements in the management of economic organizations.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Introduction to Institutional Economics.</li> <li>- Institutions as social constrains. Formal and informal institutions.</li> <li>- Institutional environment of management.</li> <li>- Transaction costs approach.</li> <li>- Property rights theory.</li> <li>- The Theory of Agency. The problem of opportunistic behavior.</li> <li>- Power and hierarchy in management.</li> <li>- Institutional approach to the economic organizations</li> <li>- The institutional economics applied to markets and the state</li> <li>- Institutions and economic performance.</li> <li>- Institutions and innovation management</li> <li>- Developmental vs. predatory management.</li> <li>- Management of Institutional Changes.</li> </ul>

Professur für Unternehmensrechnung/Accounting

<b>Module:</b>
Topics in Empirical Finance
<b>Applicability of the module:</b>
Compulsory module (for PSP: F; IE; E) or elective module
<b>Qualification Targets (Competencies):</b>
The students
- are introduced to selected empirical methods in current financial economics research,
- analyze financial data with a statistical software,
- learn to apply empirical methods while maintaining a direct link to economic theory
<b>Contents:</b>
The first part of the course presents selected microeconometric techniques and applications to empirical corporate finance and governance research:
- Event studies (corporate events vs. regulatory events)
- Sources of endogeneity
- Shock-based causal inference
- Dealing with measurement error
- Matching techniques
- Heckman selection model
- A different paradigm: Structural estimation
The second part of the course focuses on asset pricing and household finance:
- Optimal portfolio theory
- Consumption based CAPM
- Consumption based CAPM in practice
- Alternative pricing models

Professur für Wirtschaftspolitik

## **Elective Studies**

*Elective Studies A*

<b>Module:</b>
Study Abroad
<b>Applicability of the module:</b>
Elective module (for Elective Studies A)
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- deepen their knowledge on specific topics in management and economics,</li> <li>- gain the ability to cope with life and study challenges in the host country,</li> <li>- gain the ability to write and present academic work in a different academic environment,</li> <li>- gain the ability to participate in international academic discussions.</li> </ul>
<b>Contents:</b>
<p>During the study abroad semester, the students participate in a number of management and economics courses (a total of at least 30 CP) at the host university.</p> <p>The academic quality of the courses taken is at the same level as in this program. The study plan is approved by the examination office.</p>
<b>References:</b>
<ul style="list-style-type: none"> <li>- none</li> </ul>
<b>Forms of Instruction / Course Language:</b>
Seminars, Lectures and Tutorials equivalent to 30 CP / English
<b>Previous Knowledge:</b>
<ul style="list-style-type: none"> <li>- none</li> </ul>
<b>Work Load:</b>
30 CP
<b>Frequency:</b>
Each semester
<b>Assessments/Exams/Credits:</b>
Depends on the program at host university, 30 CP
<b>Responsible for the Module:</b>
Course Coordinator, Chair that offers the module

*Elective Studies B*

<b>Module:</b>
Supervised Internship
<b>Applicability of the module:</b>
Elective module (for Elective Studies B)
<b>Qualification Targets (Competencies):</b>
<p>The students</p> <ul style="list-style-type: none"> <li>- deepen their knowledge on a specific topic in management,</li> <li>- gain the ability to apply academic knowledge to a "real world" problem,</li> <li>- gain the ability to write and present an applied paper,</li> <li>- gain the ability to mediate between academics and practice.</li> </ul>
<b>Contents:</b>
<p>In the course of this internship, the students</p> <ul style="list-style-type: none"> <li>- define and realize an applied managerial project</li> <li>- present the (preliminary) results of their work and</li> <li>- write an internship report.</li> </ul>
The internship takes place in cooperation with a firm or an organization. The internship is approved and supervised by the course instructor.
<b>References:</b>

<b>Previous Knowledge:</b>
<ul style="list-style-type: none"> <li>- none</li> </ul>
<b>Work Load:</b>
30 CP
<b>Frequency:</b>
Each semester
<b>Assessments/Exams/Credits:</b>
Presentations and a project study, 30 CP
<b>Responsible for the Module:</b>
Course Coordinator, Chair that offers the module

## *Elective Studies C – Interdisciplinary elective courses*

The students have to take elective modules that comprise 30 CP in total.

For further information and offered modules see “Elective modules”.

# **Master-Thesis**

<b>Module:</b>
Master-Thesis with research seminar
<b>Applicability of the module:</b>
Compulsory module
<b>Qualification Targets (Competencies):</b>
The students will <ul style="list-style-type: none"> <li>- develop the ability to find and define a research project,</li> <li>- gain insight in the planning and realization of an own research project,</li> <li>- acquire the ability to write and present a research paper,</li> <li>- acquire the ability to academically discuss other students' research.</li> </ul>
<b>Contents:</b>
In the course of this seminar, the students <ul style="list-style-type: none"> <li>- define and realize a research project,</li> <li>- present the (preliminary) results of their research and</li> <li>- write their Master's Thesis.</li> </ul> The thesis project may have a scientific or an applied research focus. Cooperation with firms or other organizations is possible.
<b>References:</b>
- none
<b>Forms of Instruction / Course Language:</b>
2S, additional meetings in smaller groups may take place / English The module is organized as a research colloquium, where students have to present first results of their projects and discuss open questions.
<b>Previous Knowledge:</b>
- none
<b>Work Load:</b>
28 hours attendance time and 872 learning hours
<b>Frequency:</b>
Each semester
<b>Assessments/Exams/Credits:</b>
Master-Thesis, Presentation, 30 CP The time between the issue of the topic and submission of the Master thesis is five months (including four weeks reading time).
<b>Responsible for the Module:</b>
Course Coordinator, Chair that offers the module

## **Bridge modules**

<b>Module:</b>
Decision Analysis
<b>Applicability of the Module:</b>
Bridge module
<b>Qualification Targets (Competencies):</b>
The students
<ul style="list-style-type: none"> <li>- acquire the basic knowledge of management decision making, in particular, of structuring techniques and solution methods,</li> <li>- develop the ability to deal with decision problems including multiple (conflicting) objectives, uncertainty, and individual preferences,</li> <li>- develop an understanding of the subjective judgments often required in decision making and are able to counter common biases and pitfalls.</li> </ul>
<b>Contents:</b>
<ul style="list-style-type: none"> <li>- Views of Decision Making</li> <li>- Elements of Decision Problems</li> <li>- Rationality</li> <li>- Multi-Attribute Value Theory (MAVT)</li> <li>- Decision Making under Complete Uncertainty</li> <li>- Decision Making under Risk: Probabilities, Probability Distributions, Risk Simulation</li> <li>- Subjective Expected Utility Theory</li> <li>- Decision Trees</li> <li>- Group Decision Making</li> </ul>
<b>References:</b>
