FEM operates a vibrant, now expanding network of global cooperation and academic exchange. Our campus provides platform for international workshops, symposia, and conferences, facilitating students, post-docs, guest teachers, and research associates from all over the world. Ensuring enabling its recommendation that students in all programs consider one or two semesters abroad, employ some of the international programs. We support free routes as well as those students opting for exchange agreements. FEM has formally entered into, especially:

- Arizona State University
- National University of Singapore
- University of Technology Sydney
- University of Tartu
- University of Mannheim

Almost every FEM academic collaborates internationally, strives to publish in high ranked international journals, submits review reports, presents at conferences, or short courses to the relevant process of global knowledge exchange. The comprehensive portfolio of our research agenda covers a broad variety of up to date methods and issues, utilizing, among others, experimental or algebraic approaches, addressing topics like behavioral economics, supply chain management or agency theory to mention but a few.
