Application for extension of processing time (Master's Thesis)

According to your study- and examination regulations an extension of processing time for your final thesis can only be granted in case of a valid reason. (Master's Thesis: max. 4 weeks)

Meanwhile, processing can be done either informal or (preferably) by using the following application form on the basis of a valid reason. The submission of your application form can be electronic or physical.

Please note!

If the valid reason for your extension is illness, an additional medical certificate, which illustrates the specific physical / mental impairment has to be submitted.

Note: The submission of a "certificate of incapacity for work" is not considered expressive and will therefore not be accepted by the examinations board.

PD Dr. habil. Toni Richter Head of the examination office

From my medical viewpoint a considerable impairment can be diagnosed (variation of feelings on that day, exam nerves, exam stress and othere similar conditions are not consideres as impairments). The health disorder is not permanent, but temporary. Date/Signature: / Stamp:
